Safe and Sound Solutions

One source for all of your
nurse call and security
system needs

Our Success Is Yours

- We are a privately owned Canadian corporation in business since 1991.
- All work is performed by our in-house technicians, NO sub-contractors.
- We have cost-effective retrofit solutions for many older nurse call systems.
- All of our systems carry a full 1-year parts and labour warranty.
- A complete line of products and services means you won't need to go anywhere else.
- We are ULC listed for fire and sprinkler monitoring services.
- We are fully insured and WSIB compliant.
- We are a TekTone Elite Partner: fully factory certified on all Tek-Tone nurse call systems.

What We Do

Communication Systems

- Nurse call systems
- Wireless emergency call
- Pocket paging
- Pixel boards
- Patient wandering
- Reporting software

Security Systems

- Card access
- CCTV, digital- and IP-video systems
- Door monitoring
- ULC fire/sprinkler monitoring
- Magnetic locks

Who We Are

Formed in 1991, Dynamic Security initially focused on subcontract installations of security systems for large security companies.

The scope of the company's operations expanded over the next several years to include full sales, service and installation of security systems and low voltage cabling in all market segments and specialized programs for the new home construction industry.

In February of 2002, the company was reorganized and renamed as tek systems group. The company focuses on high quality, custom designed security solutions for residential, commercial, industrial and institutional clients in both new construction and retrofit environments.

Tek systems group is headquartered in Burlington, Ontario and primarily services Southern Ontario. Through the use of strategic partners, we are able to provide products and services in most major cities in Canada. We are fully insured, WSIB compliant and are ULC listed for fire and sprinkler monitoring systems.
